# **SIDRA HYDRAULIC SERVICE**

## **Hydraulic Pump Repair & Service Solutions**

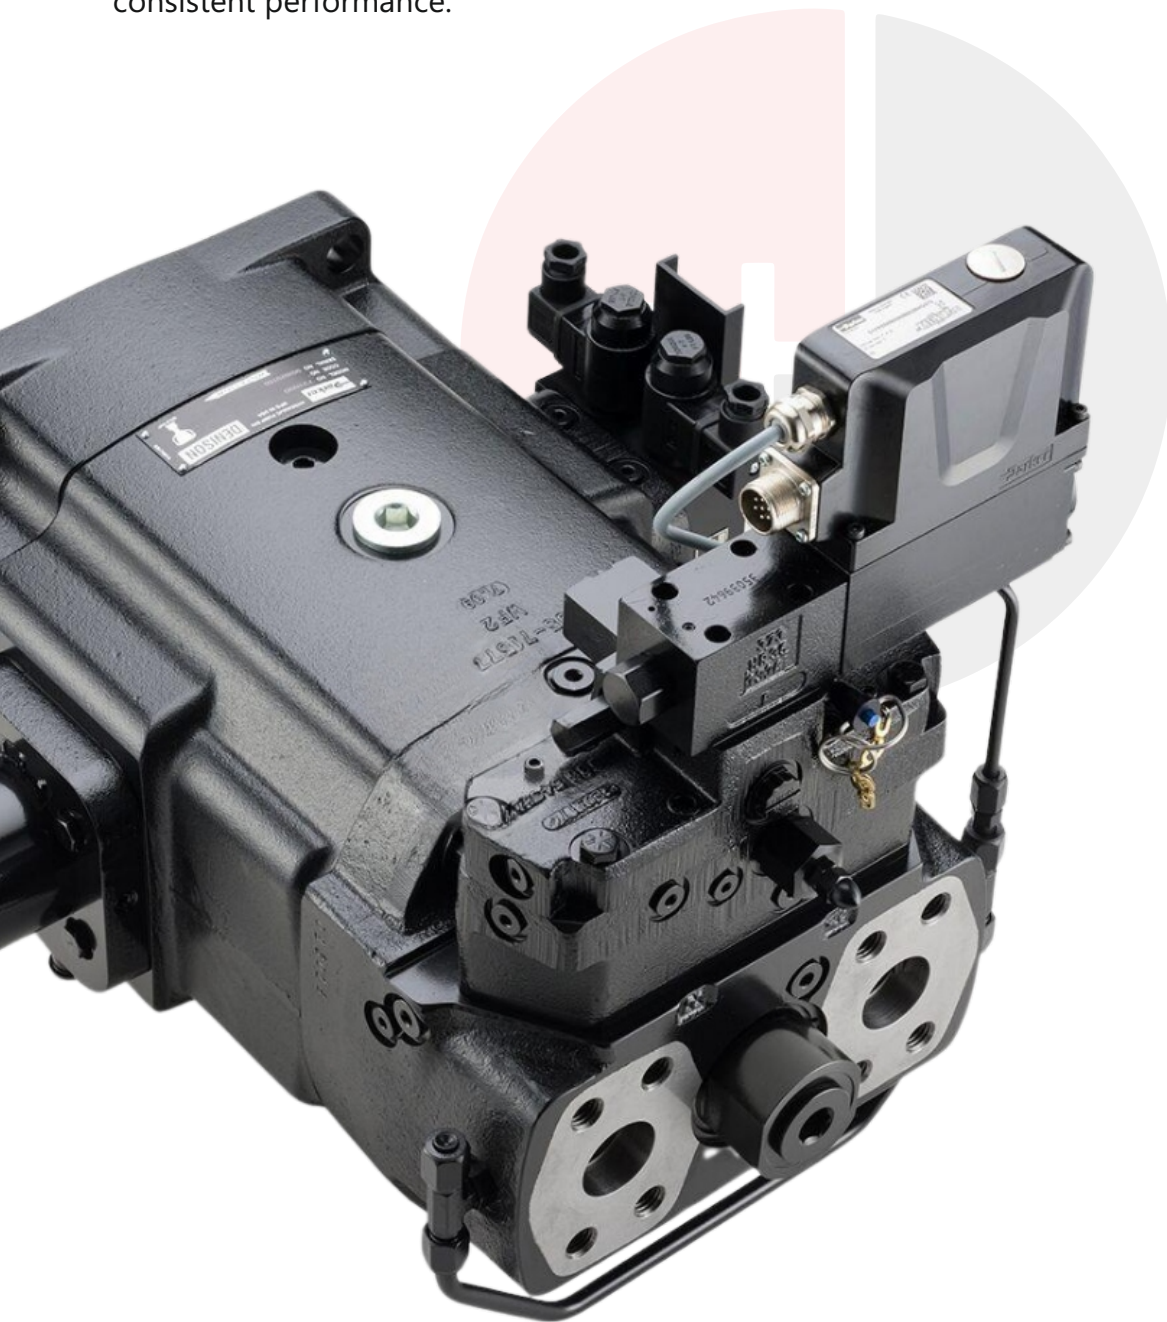

**Professional repair and maintenance of hydraulic pumps and motors for industrial machines, mining, construction, drilling, offshore, steel plants, forging, press, and Cement Plants.**

- 
- ✓ **On-Site Hydraulic Service**
  - ✓ **Hydraulic Pumps/ Motor Repair**
  - ✓ **Replacement Parts Supply**
  - ✓ **Hydraulics System troubleshooting**

# About Company

Sidra Hydraulic Service is a leading hydraulic repair and service provider, committed to delivering dependable, efficient, and cost-effective solutions for industrial hydraulic systems. With strong technical expertise and extensive field experience, we specialize in restoring hydraulic equipment to optimal performance and reliability.

We offer comprehensive services including hydraulic pump repair, hydraulic motor repair, hydraulic piston repair, hydraulic piston pump repair, and hydraulic valve repair. Each job is handled with precise diagnosis, skilled workmanship, and strict quality control to ensure long service life and consistent performance.

# Why Choose Us

## Expert Hydraulic Repair Solutions

Sidra Hydraulics specializes in restoring industrial hydraulic systems to optimal performance. With strong technical expertise and hands-on experience, we deliver reliable and long-lasting repair solutions. Skilled Workmanship

## Skilled Workmanship

Every repair job is carried out by trained professionals using precise diagnostics and proven repair practices to ensure consistent performance and extended service life.

## Comprehensive Service Range

We offer complete hydraulic repair services including hydraulic pump repair, hydraulic motor repair, piston and piston pump repair, and hydraulic valve repair—all under one roof.

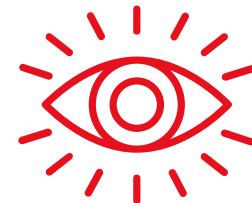

## Quality & Reliability

Strict quality control and performance testing ensure that every repaired component meets industry standards for durability, efficiency, and operational reliability.

## Mission

To provide dependable, efficient, and cost-effective hydraulic repair solutions that maximize equipment performance, reduce downtime, and add long-term value for our customers.

## Vision

To become a trusted and recognized name in the hydraulic service industry by delivering superior workmanship, adopting advanced repair techniques, and maintaining a strong commitment to quality and customer satisfaction.

# Parker Hydraulic Motor

We provide expert repair and reconditioning services for Parker Hydraulic Motors used in industrial and mobile applications. Our team ensures complete dismantling, inspection, replacement of worn components, and performance testing for reliable operation and extended service life.

- ✓ Complete Overhauling
- ✓ Genuine Spare Parts
- ✓ Performance Testing
- ✓ Fast Turnaround Time

# Parker Hydraulic Pumps

Sidra Hydraulic Service offers professional repair and maintenance solutions for Parker Hydraulic Pumps. Each pump is tested on advanced diagnostic systems to ensure optimal pressure, flow accuracy, and operational efficiency.

- ✓ Axial & Radial Piston Pump Repair
- ✓ Seal & Bearing Replacement
- ✓ Calibration & Testing
- ✓ Cost-Effective Solutions

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

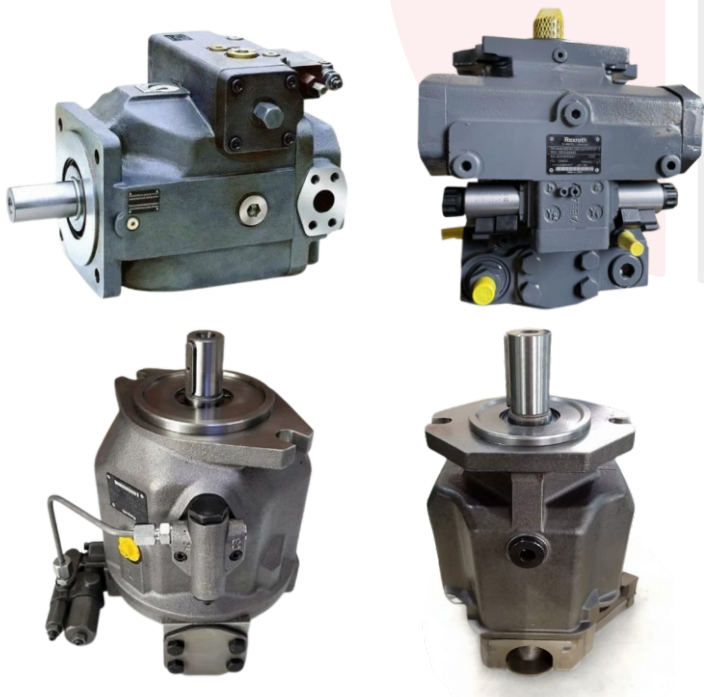

# Rexroth Motors

We specialize in Bosch Rexroth hydraulic motor repair and restoration services. Our technicians follow precise repair procedures to restore original performance standards.

- ✓ OEM Standard Repair
- ✓ leakage & Pressure Testing
- ✓ High Efficiency Restoration
- ✓ Industrial Grade Quality Control

# Rexroth Pump

Complete repair services for Rexroth axial piston and hydraulic pumps with detailed inspection, parts replacement, and load testing before delivery.

- ✓ Pump Reconditioning
- ✓ Swash Plate & Piston Repair
- ✓ Pressure Calibration
- ✓ Long Service Warranty

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

# Eaton motors

Sidra Hydraulic Service provides expert repair, rebuilding, and maintenance solutions for Eaton Hydraulic Motors used in construction, mining, steel plants, and heavy industrial applications. Our technicians perform complete dismantling, inspection, precision part replacement, and performance testing to restore original efficiency and torque output.

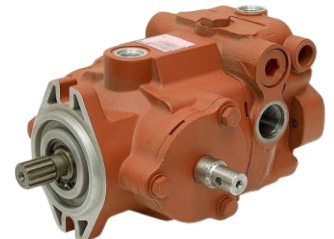

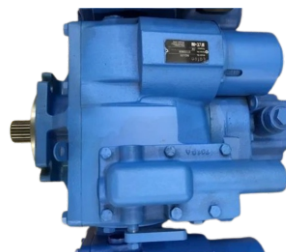

- ✓ Complete Motor Overhauling
- ✓ Rotor & Stator Inspection
- ✓ Leakage & Pressure Testing
- ✓ Performance & Load Testing

# Eaton Hydraulics Pump

We offer professional repair and reconditioning services for Eaton Hydraulic Pumps, ensuring optimal pressure control, smooth flow delivery, and energy-efficient operation. Each pump undergoes detailed fault diagnosis, internal component replacement, and hydraulic test bench validation to meet industry standards.

- ✓ Axial & Radial Piston Pump Repair
- ✓ Swash Plate & Cylinder Block Repair
- ✓ Valve Plate Replacement
- ✓ Seal & Bearing Kit Installation

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

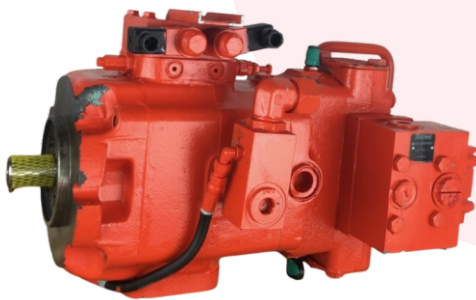

# Hagglund's Hydraulic Motor

Sidra Hydraulic Service specializes in the repair and reconditioning of Hugglunds Hydraulic Motors used in demanding industrial environments such as steel plants, mining, and material handling systems. These high-torque, low-speed motors require precision servicing, and our experienced technicians ensure accurate rebuilding to restore original performance and durability.

- ✔ Complete Motor Overhauling
- ✔ High Torque Performance Restoration
- ✔ Bearing & Seal Replacement
- ✔ Shaft & Internal Component Repair

## Hagglund's Pump

We provide professional repair and maintenance solutions for Hugglunds Hydraulic Pumps used in heavy-duty hydraulic systems. Our repair process includes detailed inspection, replacement of worn-out internal parts, pressure calibration, and performance testing to ensure stable flow and long service life.

- ✔ Complete Pump Reconditioning
- ✔ Internal Component Replacement
- ✔ Seal & Bearing Kit Installation
- ✔ Hydraulic Test Bench Verification

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

# Danfoss Motor

Sidra Hydraulic Service provides expert repair and reconditioning services for Danfoss Hydraulic Motors used in industrial and mobile hydraulic systems. Our experienced technicians perform complete dismantling, inspection, precision part replacement, and detailed performance testing to restore original torque output and efficiency.

- ✓ Complete Motor Overhauling
- ✓ Rotor & Internal Component Inspection
- ✓ Seal Kit & Bearing Replacement
- ✓ Leakage & Pressure Testing

# Danfoss Pump

We offer professional repair and rebuilding services for Danfoss Hydraulic Pumps, ensuring stable pressure control and smooth hydraulic performance. Our process includes detailed fault diagnosis, internal component repair, seal replacement, calibration, and hydraulic test bench verification.

- ✓ Axial & Piston Pump Repair
- ✓ Cylinder Block & Valve Plate Repair
- ✓ Seal & Bearing Replacement
- ✓ Performance Assurance

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

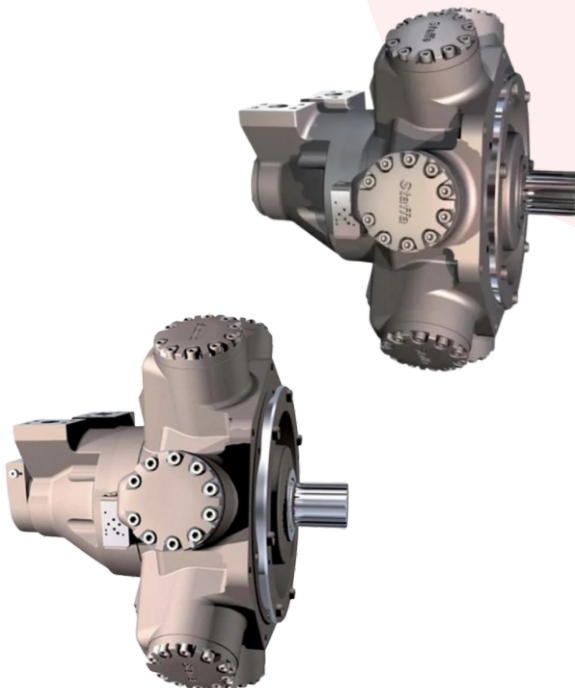

# Poclair Motors

We provide specialized repair services for Poclair hydraulic motors used in construction and mining equipment.

- ✓ Radial Piston Repair
- ✓ Internal Component Replacement
- ✓ Precision Testing
- ✓ Long-Term Performance Assurance

# Sattafa motor

Sidra Hydraulic Service offers expert repair and reconditioning services for Sattafa Hydraulic Motors used in heavy-duty industrial and mobile applications. Our skilled technicians carefully inspect, dismantle, and rebuild each motor to restore optimal torque performance and operational stability.

- ✓ Complete Motor Overhauling
- ✓ Internal Component Inspection & Replacement
- ✓ Leakage & Pressure Testing
- ✓ Load Testing & Performance Verification

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

# Gear pump

Professional repair services for hydraulic gear pumps used in industrial and mobile machinery.

- ✓ Gear Alignment Correction
- ✓ Oil Flow Calibration
- ✓ Performance Testing
- ✓ Affordable Repair Solutions

# Internal gear pump

Repair and servicing of internal gear pumps designed for consistent flow and smooth operation in industrial systems.

- ✓ Gear Replacement
- ✓ Shaft & Seal Repair
- ✓ Leakage Control
- ✓ Pressure Testing

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

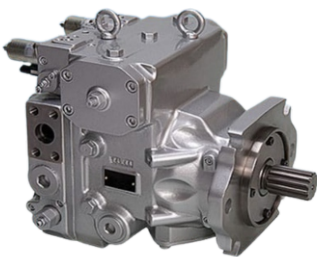

## Intermote motor

Complete repair and maintenance services for Intermote hydraulic motors ensuring smooth torque transmission and stable operation.

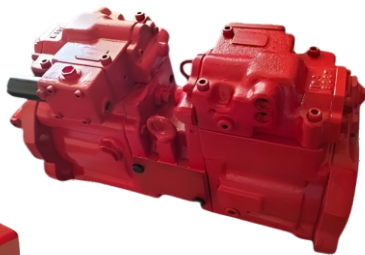

- ✓ Component Replacement
- ✓ Seal Kit Installation
- ✓ Functional Testing
- ✓ Reliable Performance

## Kawashaki Pump and Motor

We offer expert repair and rebuilding services for Kawasaki Hydraulic Pumps, ensuring stable pressure control and smooth hydraulic performance. Our repair process includes detailed fault diagnosis, internal component replacement, calibration, and hydraulic test bench verification to meet OEM standards.

- ✓ Axial & Piston Pump Repair
- ✓ Cylinder Block & Valve Plate Repair
- ✓ Swash Plate & Piston Inspection
- ✓ Seal & Bearing Replacement

**Spl. in :** All Type Repair of Pump, Motor, Valve, Proportional Valve, Directional Valve etc.

**STEEL PLANT**

**MINING INDUSTRY**

**DRILLING**

✓ **Hydraulics Pumps**

✓ **Hydraulics Motors**

✓ **Hydraulics Valves**
